

SINEAX U 539

Transducer for AC voltage

With power supply
Carrying rail housing P8/35

Application

The transducer **SINEAX U 539** (Fig. 1) converts a sinusoidal AC voltage into a **load independent** DC current or a **load independent** DC voltage proportional to the measured value.

The transducer fulfils all the important requirements and regulations concerning electromagnetic compatibility **EMC** and **Safety** (IEC 1010 resp. EN 61 010). It was developed and is manufactured and tested in strict accordance with the **quality assurance standard** ISO 9001.
